

Polars Descriptive Statistics Report

Here are the first six rows of the data set, which contains all Robert De Niro movies, their Rotten Tomatoes scores, and their years of release:

Year	Score	Title
i64	i64	str
1968	86	"Greetings"
1970	17	"Bloody Mama"
1970	73	"Hi Mom!"
1971	40	"Born to Win"
1973	98	"Mean Streets"

Here are the descriptive statistics of the Rotten Tomatoes scores, as computed by the `denirostats()` function in `main.py`:

Mean Score	Median Score	Standard Deviation of Scores
f64	f64	f64
58.2	65.0	28.07

Finally, here is the data visualization, a histogram of the Rotten Tomatoes scores, as generated by the `denirohist()` function in `main.py`:
